(5.18mb)

(\$49.95)

Spotmau PowerSuite PROFESSIONAL 2008 includes key features below and more.

- Windows Recovery provides a complete solution to recover your corrupt Windows such as partition table recovery, lost/missing files recovery and so on.
- Windows Backup & Restore backups your Windows and partition table periodically. Recover your damaged Windows when the system crashes, or recover registry when the registry crashes, or recover partition when the partition crashes.
- Windows Doctor (Windows Speedup, Smart Uninstall, IE Manager, Startup Manager) provides Step by Step Guide to speedup your PC. Remove your unwanted applications; restore default settings of your Internet Explorer; enable you to choose which programs to run automatically at Windows startup; change your desktop icon and right click menu.
- Password & Key Finder finds your lost passwords for Email, MSN, IE and asterisks; finds your Windows, Office and IE product or CD keys.
- Windows Admin/User Password Recovery can easily reset Windows Vista/2003/XP/2000/NT administrator/user password to blank or change the password.
- BIOS/CMOS Password Recovery helps you instantly find or clear your computer's BIOS/CMOS Password.
- Security & Privacy clears up all your activity records in your computer to protect your privacy; enable you to encrypt folders to protect your private files from being viewed by others; shred unwanted sensitive data permanently from your hard disk from being recovered and viewed by others; hide your sensitive data from being displayed in explorer.
- Data Transfer can be used to backup your personal data before Windows reinstallation. It can transfer files to the removable media/devices, or to a second, undamaged internal hard disk when your Windows has crashed or the hard disk has been damaged.
- Unformat & Undelete recovers files from an accidentally formatted or reinstalled partition / disk; restore files that have been deleted accidentally.
- Wipe Data permanently deletes all data from the hard disk or a certain partition to prevent others recovering your sensitive data. A must-do procedure before reselling or donating your computer or hard disk.
- Disk Clone & Backup package provides all kinds of clone options under Windows or when Windows crashes: Disk to Disk, Disk to Image, Disk from Image, Partition to Partition, Partition to Image, Partition from Image. You can easily backup disks/partitions or transfer all data from one disk to another, or even burn to CD/DVD, with several mouse clicks. This utility is for cloning Windows 98, ME, NT, 2000, XP, 2003 and Vista. It supports IDE, SATA, SCSI, and USB interfaces.
- Partition Genius a powerful partition management tool. Create/delete/format your partitions; convert one partition type to another; resize/move/split/merge your partitions; hide/show a partition.
- Desktop Secretary easily manages your daily duties and business schedules.

So anybody who owns or works on computer should have one. Does this CD support any Windows? Answer: Yes, this CD supports all Windows including Windows 95, Windows 98, Windows Me, Windows 2000, Windows XP and Vista. What payment options can I use? Answer: We accept payment by Credit Card, PayPal, Bank/Wire Transfer, Check/Money Order, Credit Card by Fax, and Invoice. Is this CD for advanced users or PC beginners? This CD has easy-to-use interfaces and easy-to-understand directions. And this CD is so powerful that many technicians from Fortune top 100

companies, such as Boeing, have bought this CD. So anybody who owns or works on computer should have one. What's the price in my country's currency? First, please check our CD today's price. Then, check Yahoo Currency Converter. When you pay, our payment system will automatically handle the conversion for you. Who is the Regnow? RegNow, the software industry's premier payment service provider, enables any software company to securely and easily receive payments online. Regnow is located at Eden Prairie, Minnesota, USA. Their official website: <http://www.regnow.com> As a software provider we focus on software development, while outsourcing our payment issues to Regnow. So, when you click "Buy Now" button from our website, you will be directed to Regnow payment page. What payment options can I use? We accept payments by Credit Card, PayPal, Bank/Wire Transfer, Check/Money Order, Credit Card by Fax, and Invoice.

Below is a brief description of each option and the process to follow your order through to completion. Credit Card: We currently accept Visa, Mastercard, American Express, Discover, Visa Check Card, Eurocard and MasterMoney. All orders are processed in real time and upon completion an email will be sent to you as confirmation of your purchase. This option is recommended and you can begin to download the software instantly. For all other options you will not receive your order until we have received payment.

Bank/Wire Transfer: Depending on your location, once you click "Place Your Order" you will either be provided with payment instructions on your monitor or you will be advised that an invoice will be postal mailed to you. European customers who receive an invoice by postal mail may use the invoice to pay by bank/wire transfer or GIRO.

Check/Money Order: Once you click "Place Your Order" payment instructions will be presented to you on your monitor. With this option you will need to send a check or money order to the address listed on the final page. Your registration will not be complete until funds have been received.

Fax - Credit Card: Once you click "Place Your Order" payment instructions will be presented to you on your monitor. The fax number will be presented at the bottom of the final page. Once we receive your completed information we will process the order as soon as possible.

Invoice: Once you click "Place Your Order" payment instructions will be presented to you on your monitor. After you submit your order a printable invoice will be displayed in your web browser. After printing the invoice, you will then use it to remit payment to the address given on the invoice.

PayPal: Once you click "Place Your Order" you will be provided with information for making your payment using PayPal. By clicking on the "Buy Now" button on that page, you will be directed to the PayPal website to make your payment. Please note that you do not need to have a PayPal account to make use of this option. PayPal will also allow you to pay using a credit card. Do I have to download something? No. If you have checked the "Get it on CD!" on the purchase page, you can just wait for your physical CD to arrive, while totally ignoring any downloading link and any instructions on how to burn a CD.

Do I have to burn a CD? No. If you do not have a CD burner or if you do not want to burn a CD, please add the "Get it on CD!" option on the purchase page. How to burn a CD from the downloaded file? If you have got a .ISO file (for example, Spotmau\_PowerSuite\_2008.ISO), please do NOT try to click / open / unzip / extract / install the ISO file. You need to use your CD Writer to burn a CD from this ISO file. Click here for step-by-step instructions. I have a dialup connection. I cannot bear the downloading speed.

Please use download accelerator. The accelerator will increase your download speed and resume broken download: FlashGet or Free Download Manager

If for some reason you lost your Internet connection, you can resume the broken download. Just open your download accelerator to see if the download resumes. If not, RIGHT click your mouse on the file, and select "Start" or "Restart download".

We recommend you select "Get it on CD!" option on the purchase page. For only an additional \$4.75, we'll burn your program onto a CD and mail it to you right away!
